

What are we missing? Write in your projects and partnerships here!

Describe Partnership here:

- **FCI (Florida Climate Institute):** Florida's SECC scientists and Sea Grant have given expert advice and made data available to many FCI projects.
- **DOI CSCs (Climate Science Centers):** V. Misra supplied downscaled climate data for joint project in Puerto Rico ; co-convenor for NAF working group described above.
- **Cotton Incorporated:** partner for smartphone applications developed by Vellidis (website).
- **North Carolina (NC) State Climate Office:** V. Misra supplied downscaled climate data for joint project in Puerto Rico.
- **Georgia (GA) Cotton/Peanut Commissions:** G. Vellidis partnered to develop Irrigation Scheduling.
- **Carolinas Integrated Sciences and Assessments (CISA) and Southern Climate Impacts Planning Program (SCIPP):** collaboration on developing Florida-Atlantic piece of the SURGEDAT tool (storm surge database) and NIDIS DEWS pilots (i.e., ACF basin, coastal Carolinas, and Southern Plains)
- **Florida Building Resilience Against Climate Effects (BRACE):** SECC Coordinator sits on Technical Advisory Group; M. Griffin and D. Zierden providing climate data for health research projects.
- **Emergent Pathogens Institute (EPI):** collaborator A. Kane EPI faculty; V. Misra on joint proposal with EPI in Caribbean.
- **Flint River Partnership (Soil and Water Conservation District):** G. Vellidis partnered for developing Irrigation Scheduling.
- **AL (Alabama) State Climate Office:** exchange climate variability and change data.
- **Land Grant Universities:** partner universities include University of Georgia, University of Florida, Auburn University, and Florida State University.
- **Florida, Georgia, and Mississippi/Alabama Sea Grant programs:** the Directors of all three Sea Grant programs are involved in this proposal, either as PI's or have programmatic connections and have provided a Letter of Support.
- **National Weather Service, Southeast River Forecast Center, NIDIS, NDMC, USDA, USACE:** ACF Drought Assessment webinars conducted in conjunction with these partners.
- **USDA SERCH (Southeast Regional Climate Hub):** regularly interact through phone calls and webinars; SERCH funding AgroClimate expansion work.
- **PieCenter** faculty Angie Lindsey
- Southeast & Caribbean Climate Community of Practice: SECC Coordinator on Steering Committee
